To whom it may concern:

My wife and I have had a great working relationship with Eschenfelder Landscaping for over three years. It started in 06 when we hired Willie to completely landscape our new home. We had several bids and although Willie's was slightly higher, we decided to go with him and have never looked back.

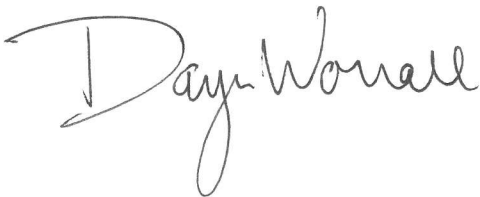

Midway through our landscaping we decided to incorporate a below ground swimming pool. Willie put the whole project in motion, found an excellent pool company (Omega Pools) that worked quickly and attentively to keep the project on our timeline.

Our yard is three years along. We are still working with Willie when problems occur. Their crews are responsive, fast and very professional. Willie has also helped me with projects that I started and couldn't finish.

Our yard consistently gets compliments from our neighbors and passers by. We love it and appreciate what Willie has done for us. Call me and I'll be glad to show it to you, it's amazing. 801-694-5008

Sincerely,

Dayer and Jamie Worrall
